## AFNORTH International School

As I prepare to graduate in exactly 1 month, 17 days, 4 hours, 12 minutes, and 45 seconds (definitely not counting) from AFNORTH International School, I have discovered that it is so important to look backwards before you look forwards. I have been looking towards my future for so long that I rarely find time to step back and appreciate the steps that I have taken to get here. Senior year has single handedly been the most fun and exciting year yet, while also somehow managing to be the most stressful. The time has finally come where we must make decisions about our future using the skills and knowledge that our past has provided to us.

Over the past four years, people have come and gone, but we have always managed to stay positive and stay together. We challenge each other and use it to strive towards our goals. We have witnessed the growth of each of us as we have developed into strong and independent individuals who will do great things in the world. I believe our internationalism sets us apart and has provided us opportunities to experience the world like never before. Throughout our four years, together, we have won sports and other championships, competed and excelled academically, and most importantly had fun. We also may have learned a thing or two along the journey. We have grown up together and after seeing everyone every day, this tight knit community will be a challenge to leave behind. I know we will all go forwards to the future with our heads held high, knowing that our past experiences have us well prepared to take on any challenge life throws at us.

— Kailey Koger

Alconbury, England

## Alconbury High School

As the Class of 2023 approaches our final days and moments of high school, we reflect on our journey thus far and the unprecedented challenges we have faced. When we entered high school in the fall of 2019, we never imagined that the word COVID-19 would become part of our daily vocabulary, nor would it shape our entire experience. It was nearly two years before many of us saw each other's faces without a mask; we had to learn to connect in new ways. We experienced the emotional roller coaster of having hope for normalcy, only to have it stolen away with another variant or new lockdown rules. However, we adapted to the challenges and found new ways to communicate and bond even during the most difficult times. Despite the challenges, the AMHS Class of 2023 never let our Dragon Spirit falter. As we were able to return to some "normal activities,"

we came together as a class, bonding over our shared experiences. Our bond as Dragons has never been stronger. Whether painting our school lockers, pep rallies, hallway decorating contests, 18-hour bus rides to Germany for sports, or Senior Synergy, our class has consistently demonstrated an unwavering Dragon spirit. We have remained resilient and appreciated every moment of our senior year. As the senior class president, I hope we will use the lessons we learned during the past four years and go out into the world post-pandemic, showing our full potential and smiling faces. We are entering adulthood with more empathy and appreciation for our community than we could have previously anticipated. We will forever be Dragons.

— Reagan Boyett, Senior Class President

The Senior year is an important milestone in any young person's life. It is a year filled with worries for your future, study sessions meant to prepare you for Advanced Placement exams, and long nights of waiting for your University acceptance letters. This is why it is so important to have a close relationship within the Senior class, and luckily for this year's class, we do.

I am sure that many people are willing to admit that after last year's graduating class of seven, this year's sixteen students seemed like a dangerously high amount. Despite many High Schools in America, and nearly every other country too, having over a hundred students in their graduating classes, Ankara Elementary High School has never been one of those schools. Ankara EHS has always been filled with a low number of students, which has always worked well for everyone involved. Fortunately for this year's class, we have been able to make things work.

Regardless of all the challenges presented this year, among them the difficulty in adapting to a fully present classroom setting after Covid-19, the fear of the return of the global pandemic, and the off school days we had in respect for the lives taken during the disastrous earthquakes that took place in Turkey this school year, we had a good time. We had incredible experiences during our sports games, among them soccer, basketball, and volleyball. We had magnificent opportunities during this school year such as Prague Model United Nations and Educators Rising. We had a remarkable class filled with people from many different nations, creating an amazing internationally diverse community.

This year, and this class especially, has been a great joy. Having spent the past few years together, the Senior class of 2023 has been a great experience for all parties involved, however, this is where our paths diverge. Some of us will stay here in Turkey, some will go home. Some will take a gap year, some will start University, and some will join the military. This is where we all forge our own path.

— Ruta Dreimane, Senior Class President.

**Ansbach, Germany**  
**Ansbach High School**

Ansbach is a really special place. I'm sure we've all realized that by now. I've had the pleasure of being here for 5 years, but it matters not if you've been in Ansbach all your life or if you got here halfway through senior year. When you go to Ansbach, you're a part of a wonderful community - a family. We've shared so many memories: cramming for exams, getting stranded at train stations in the middle of nowhere on summer nights, and wearing our goofiest outfits for spirit days. We've got one more memory left together: when we walk across that hangar at graduation, and the sum of all our lives until this point is rewarded. After that, we're all going our separate ways, whether it's college, international schools, the military, or something else entirely. But that won't be the end of our shared

experience. I'm sure we'll all have to explain the complicated story of where we're from countless times. We'll show our kids our yearbooks and tell them all about our crazy time here. We'll remember the good times, the bad times, and the strange times. We'll be proud of who we were, we'll laugh at the things we did, and we'll smile about the friends that made high school so special. No matter how far apart we are, we'll carry each other with us.

Class of 2023, let's be proud of ourselves for how far we've come. It's been a long and confusing and sometimes difficult road, but we made it - together.

— Collin Robertson,  
 Senior Class President

**Aviano, Italy**  
**Aviano High School**

As the school year comes to a close, we find ourselves reflecting on the challenges that we have faced and overcome. For the seniors at Aviano, this year marks an incredible milestone - it is the first year that we have experienced a "normal" school year without COVID-19 impacting our learning experience. We have not had to attend school virtually, nor have we had to wear masks in the classroom. This achievement is a testament to the resilience and tenacity of our entire senior class. We have weathered the storm of a global pandemic and come out the other side stronger and more united. Despite the uncertainty and fear that the pandemic brought, we never lost sight of our goals and continued to push forward towards our dreams.

As I look back on my four years at Aviano, I feel an immense sense of pride and gratitude. The experiences that I have had and the friendships that I have formed have shaped me into the person that I am today. I am honored to be a member of the class of 2023, surrounded by such talented and motivated peers. While our time at Aviano may be coming to an end, I know that we will carry the lessons of resilience and tenacity with us into the next phase of our lives. We have proven that we can overcome even the most difficult of obstacles, and I am confident that we will continue to do so in the future.

"Baumholder Middle High School, a small but mighty school!" I moved to Baumholder in 2019, at the start of my freshman year. Moving here I had no idea what to expect; the school was much smaller than I had expected, and I was uncertain about how to spend the next four years here. Two weeks before the first day of school, I begged my parents to let me move back to Vilseck so I could live with my best friend for the next four years. Of course, as parents do, they laughed and reassured me that I would love it here. Being the emotional teenager I was, I stormed away in disbelief. Four years later, I can proudly say I was wrong. Baumholder Middle High has been nothing but a roller coaster these last few years. It's hard to believe that just four short years ago my classmates and I were freshmen entering this crazy journey called high school. This journey has been anything but ordinary for us.

From beginning freshman year with tons of sports and school clubs, to going back and forth between in-person and online schooling, the class of 2023 has truly seen it all. Now, we are mere weeks away from graduation, and it is safe to say we made it! The seniors at Baumholder Middle High will forever be grateful for everything the school has done for us. As we prepare for our final days here at Baumholder, we look back and laugh at all the crazy moments we've had with each other. We share a strong bond that we will always carry with us throughout the coming years. Whether you have just joined our class or have been here since the second grade, you are now and will always be a Baumholder Buccaneer!

— Isabell Cobb  
 Senior Class President

Manama, Bahrain

## Bahrain Elementary High School

As the small graduating class of 2023 from the remote island of Bahrain, our diverse student body has had a hectic journey through our four years of high school. Though our school may be small, our graduating class of 47 students represents 23 different cultures from Bahrain to Lebanon, Morocco, Kenya, Sudan, Canada, Mexico, the United States, and many more. Like most graduating classes of 2023, we started our freshman year thrown into a pandemic. We had to overcome new challenges, from still learning the ropes of high school, being unable to see our friends and teachers in person, and getting used to being around our siblings 24/7. There continue to be obstacles, and we may face cross-roads we have to travel alone.

It's easy to think that this was all a detour, but through these challenges, we became more independent, found new interests, and had time to discover our strengths (and weaknesses, like our very short attention span during virtual school). But perhaps these weren't detours, but the road we were meant to take on our journey to adulthood.

As our senior year comes to an end and we begin our separate journeys, we can look back on the fond memories and friendships we made. This unique school is different from any other DoDEA school and has given the students such a unique opportunity to learn alongside classmates from around the globe. We can carry this experience with us to give us strength and remind us that even if our plans detour, it's about the people we meet, the experiences we have, and taking joy in the adventures that lay ahead. Michael Josephson once said, "Take pride in how far you've come. Have faith in how far you can go. But don't forget to enjoy the journey."

We were always in such a hurry to get to where we were going that perhaps we forgot to enjoy the journey. As we end our K-12 careers and begin new adventures, let us not forget to take the time to look out the window, enjoy the scenery, and maybe even take the scenic route to enjoy everything life has to offer us in our youth.

## Brussels American School

Our senior year has been a unique journey for us all, including a multitude of unforgettable memories and experiences that have prepared us for our futures. We were able to experience a "normal" senior year after the effects of the pandemic. Our ability to host and participate in dances, pep rallies, and sporting events without restrictions has allowed us to experience this year to its fullest. We formed strong connections with each other, and, despite our small numbers, feel a large sense of community and belonging. We will forever cherish the impact that our school and community has made on us as individuals, and hope to reach our fullest potential in the next steps of our lives. Go Brigands!

Hohenfels, Germany

**Hohenfels Middle High School**

Coming from a school of less than 300 students spread across seven grades, I feel safe in saying that the Hohenfels Middle High School Class of 2023 has certainly had a unique experience. While at times the size of our school may have been inconvenient, it has allowed us to form close bonds and friendships with everyone in our class. When we walk across the stage to receive our diplomas in June, we will have a fun story about or a memory with each person. We will recall sitting in class, working on a project, eating lunch together. Despite not spending all four years of high school with all the same people, we share many of the same fundamental experiences with one another. We all grew up as military affiliated kids. We all went through high school under the influence of COVID-19. And we all are stepping into the next chapter of our lives together.

Senior year hasn't been easy, but then again, nothing has. We have all faced our own challenges over the past 17 to 18 years, but we have also all experienced our own successes and wins as well. Now, we are emerging from high school as students who have lived in Germany, who have survived AP exams, and who have participated in many different types of activities. With the support of each other, our parents, and our teachers, we have achieved highly and been able to enjoy the many unique experiences afforded to us. Although a bittersweet experience, graduating is one of the largest accomplishments any of us have achieved so far in our lives and we should be proud of ourselves. It has been a wild ride, but I am pleased to say that we have finally made it!

# Kaiserslautern High School

## Class of 2023

Our high school experience is one for the history books. It all started in August 2019 when we first walked in to our basically brand new, 21st century high school. We were anxious and excited. We had gone from the top class in middle school back to the bottom class of high school, all in 3 months. We faced the unknown as soon as we walked through those doors, but little did we know, that later in the school year, we would face something never seen by anyone in the school. COVID-19, it disrupted everything. Our regular high school year with classrooms, desks, paper and pencils. Went to our bedrooms, in our beds with computers. Eventually, we got to the end of freshmen year and went to summer break.

For sophomore year, we were back in the classrooms, although one thing was different our faces were covered with masks. Some had flowers, others were bandanas, and some were

medical grade. We took mask breaks and our desks were separated. We were all hopeful to remain in the classrooms, but soon after, we were back in our bedrooms. This was the time when our attention span was short and teachers were rushing because they only had 45 minutes with us, and a good chunk of the time was them trying to get kids to turn their cameras on. When we came back in March we all called it the first day of school all over again. It was an adjustment the classes were three times longer than the virtual ones and you could see the people and not just their profile pictures. Shortly after our return, it was summer break and Germany was in such a strict lockdown, so we couldn't really go anywhere. It was still enjoyed nonetheless.

Then we returned for Junior year, we still wore masks, but we were in classrooms with our peers. Some sports cancelled and the dances usually off

campus, were in the common area of our school, but it felt normal to the extent that we knew. This was the year we got to remove the masks. And some were taken by surprise the faces under the masks. And then again it was summer break, Germany loosened the restrictions so you could travel beyond the village you lived in.

Finally we reached Senior year, what we have been striving for since first grade. COVID finally was behind us, the limitations it placed before were less restrictive. Freedom for a regular high school year was finally granted. All the sports were active, our dances were off campus, and clubs could sponsor events without worrying about social distancing. There was our movie themed homecoming at the Armstrong's club, the winter carnival filled with delicious food, culture night where the entire community got together, our long-awaited senior prom that

was downtown at the Fruchthalle, our senior trip to Europa Park, and now we are almost to senior week with fun-filled activities, ending with graduation.

Now that graduation is upon us, it feels surreal, how has it been 4 years since the first day we walked through those doors. But it is real the senioritis is kicking in, our assignments are done, and the final projects are being

wrapped up. Graduation is here for the Kaiserslautern High School Class of 2023 after 4 years of unknown.

**VILSECK HIGH SCHOOL**

**Congratulations Elizabeth!**

You are a shining star! Congratulations!!!  
*We love you, Mami, Papi, and Elias.*

**Congratulations Alleyna!**

We are so proud of your accomplishments in high school. You are amazing and talented.

**Lakenheath, England**

**Lakenheath High School**

Finally free of COVID-19 lockdown and restraints, the Lakenheath High School class of 2023 was determined to make an impact. Our seniors have come up with new and inventive ways to have fun and connect with each other this past year. We started out our year by hosting a senior movie night, where the seniors rented an entire movie theater exclusively for the upperclassmen. Yet another activity to further our sense of class spirit was when the seniors took the morning off to go bowling! The experience was all the sweeter because while we were beginning new friendships, the other grades were taking the PSAT exam.

In addition, we continued our new traditions and even revisited a few previous ones. A winter dance wasn't even in the periphery of our current students, however, through diligence and will power (and commissary sandwiches), the Senior Class was able to bring back another event for the whole school. Our dance proved to be a massive success and has paved the way for upcoming classes to host the dances again in the years to come, leaving a legacy behind for this year's senior class.

As with most military schools, the Lakenheath seniors have gone through a lot of change. Those of us who have been here since our freshman year have seen three different principals and two different vice principals. While challenging to adapt to new leadership nearly every year, the seniors at Lakenheath high school were more than happy to welcome the new staff to the school and make them a part of the Lancer family. There are many more examples of the Lakenheath Class of 2023's goal of building community, and our school's hope that we take this energy into whatever new community we find ourselves in next.

As we finish off the year, our seniors are reflecting on the past and looking towards the future. Every motivational teacher, assignment, and kind word, has brought us to the place we are today. Though we've faced setbacks and difficulties, we made it through victorious, looking forward to what lies ahead and learning from those obstacles we overcame.

Naples, Italy  
**Naples High School**

Passionate, Lively, and Supportive are the attributes those who have been around the class of 2023 would attribute to these 77 unique seniors. These are students who dedicate as much vigor to their studies, sports, and club activities as they do their fun. There is never a dull moment with this graduating class and it seems someone is always ready to crack a joke or share a laugh with the people around them. Because Naples is such a tight knit community it feels like one large group of friends, waving in the halls, hanging out in between classes, and texting on the class group chat. We have had so many great experiences this year: sitting together at senior sunrise to commemorate the start of our final year, dying easter eggs, exchanging wacky white elephant gifts, decorating valentines day boxes, and having spectacular senior buffets full of our favorite foods for Thanksgiving and Mardi Gras. Everyone knows

each other and everyone takes care of one another. Students are always ready to help carry a backpack or assist with a tricky question on the homework due next period. I have been lucky enough to interact with the Senior class as the executive student council president this year, and this class has been fantastic about introducing new ideas and fighting for their opportunities. A very spirited class, with just as much sincerity as studiousness, I know the community will miss us but is excited to wish us farewell as we go on to tackle new adventures. Go Wildcats and congratulations Class of 2023!

**Ramstein High School**

If only we could flash back to our childhood days when it seemed we had no responsibilities. When we could run around outside with no worries, play games with our friends, or stay up late watching Ratatouille. A simple movie about a rat following its passion, yet it brought us so much joy and taught us more about life than we may have thought:

“The only thing predictable about life is its unpredictability.” -Remy, Ratatouille.

Wise words from a rat. Words that now have a deeper meaning than ever before. No one could have predicted how our high school experience would be. From Covid taking away half of our dances and sports and forcing us to isolate ourselves from the ones we loved. Or having to start again at a new school halfway through high school making us feel once again

like the lost, little freshmen we once were. Yet through it all, we persevered. We kept pushing forward through the pain, maybe some tears, and a whole lot of complaining, but we made it. We made it, probably much faster than many of us expected. Life flew by, friends came and went, and now it's our turn. Our turn to find our place in the world. To find out who we are meant to be beyond these four walls. To find out how we will go out and better ourselves, but more importantly, the world. We've all come far but have even further to go. Take pride in what you have accomplished and have faith in what you will do. Go out and do what you want to do. Make decisions for yourself. Live your life the way you want. This is only the beginning.

## Rota Middle High School

The DGF Rota High School Class of 2023, proudly represented by our mascot, the Admiral, is ready to embark on a new chapter after experiencing the challenges of the COVID-19 pandemic since our freshman year. As we bid farewell to high school, we cherish this unique opportunity to savor our first and last normal year of high school together. Our class has shown remarkable resilience and adaptability throughout this journey. We have embraced every moment of this year, relishing in the joy of travel, engaging in competitive sports, and celebrating memorable dances. Beyond the classroom, our class members have actively participated in a diverse range of extracurricular activities. Our graduating class, consisting of 30 seniors, shares a close bond, having journeyed together since our freshman year—a bond that is truly extraordinary in DoDEA schools. We extend our gratitude to every member of our graduating class for their unwavering support and camaraderie. As we conclude this chapter, we are confident that the Class of 2023 will continue to achieve remarkable success in their future endeavors. We express our heartfelt appreciation to our dedicated teachers, who have guided us throughout our formative years. With unwavering determination and fearless spirit, we are ready to conquer new horizons, navigating life's seas with courage and resilience. Congratulations, Class of 2023, and may the Admiral inspire us as we set sail toward a bright future. In the words of our school's namesake, David Glasgow Farragut, "Damn the torpedoes, full speed ahead!"

## SHAPE American High School

Over the past five years of being at SHAPE, I have had the amazing opportunity of interacting with one of the most diverse groups of people in the entire world. Being a SHAPE Senior is not only being a part of an American school, but an international community. Throughout this year and years past, our school has had the privilege of creating amazing relations within our diverse community. Every day, our students interact with dozens of different cultures and nationalities which enables a more complex understanding of our world. Compound this by a few years, and we have one of the best senior classes out there. I am simply honored to be the Class President of the SHAPE 2023 Graduates. I wish them all the best and know they will be the future leaders and role models of this generation.

Sicily, Italy

# Sigonella Middle High School

After living in Sicily for two years, I fully understand what author Theodor Seuss Geisel meant when he said sometimes you will never know the value of a moment until it becomes a memory. When I first moved here, I was too preoccupied with comparing Sigonella to San Diego. I wasn't really excited to leave the "perfect" life I had left behind. But looking back, I was welcomed with open arms my junior year, and did the same for my fellow seniors that arrived this year. My classmates and I have gone through so much together, shared countless laughs, and even shed a few tears. The small class sizes made it easier for us to reach our goals by always having access to our educators. We competed with the spirit of a jaguar on the island and at other schools across Europe. Those moments, big and small, have now unexpectedly turned into new perfect memories. As my time here comes to an end, I realize how valuable this place is for the Class of 2023 and how much we are going to miss living in Sunny Sigonella.

# Spangdahlem High School

Being a student at Spangdahlem High School has been an academically enriching experience. We have been able to experience a multitude of different cultures, travel to dozens of countries, and form a tight-knit community with our peers. Our class is chock-full of interesting and unique people who truly make the school interesting. As our first full year without masks, we have been given new opportunities to build the community in a way that can stand through the years to come. Despite our struggles this year, we believe that the majority of the school—especially our seniors—have worked to pull us back together. We are becoming more united as a whole, and we are so excited to see what's in store for the future of our senior class.

Spangdahlem High School has given us a satisfying close to this era in our lives as the class of '23. We cannot be more pleased with the year, as we have been able to host multiple events for seniors and the entire school through NHS and the Student Council. Our senior breakfasts offer us time to take a break with each other, and we have definitely become closer as a result.

These past four years have absolutely flown by, and we are all excited for the next stage in our lives. Whether that is college, vocational school, the military, or something else, the Spangdahlem senior class of 2023 is ready to venture out into the world!

**Stuttgart High School**

**STUTTGART HIGH SCHOOL CLASS OF 2023**

Pretty much everyone has some semblance of understanding regarding what senior year of high school may be like. Whether it's a product of a movie or past life experience, there's a senior year ideal.... and real life is nothing like it. Senior year at Stuttgart High School has been a glorious mess of college plans, boredom, nostalgia, and fun. There has been no shortage of impossible tests and difficult classes as myself and my classmates have rushed to get every credit we can on our applications, and senior year is, for most high schoolers, plagued by a rejection from that school we REALLY wanted to go to, or the reality that we have no idea what we want to do next. I've grown into the new phase of my life while still stuck in the old one, which has made it hard to keep living in the now, instead of imagining I'm walking down the streets of a college campus with my own brand new independent life. But, as I'm reaching the end of my time here, I'm realizing there is SO much of senior year that I will look back on fondly as well. I've chosen a future that I can look forward to every day, taunted underclassmen with "You wish you were a senior!" during pep rallies when tug of war has gotten especially competitive, and seen the senior class's faces plastered.... Everywhere, from class pictures to decision walls. So all in all? Yah, senior year's been pretty cool! As ready as I am to say "Peace Out Stuttgart!" I know I'll definitely miss it!

Vicenza High School's Class of 2023, has experienced an unorthodox, yet nevertheless, memorable high school experience. As Freshman, we experienced a single semester of "normal", until we fell into the infamous online Google Meets and asynchronous learning. The pandemic put us through the wringer, yet as seniors, we are the first class since 2019, to experience a relatively "normal" senior year. However, as military-connected kids, I guess little in our high school career can really be considered normal. As friends come and go, we experience new friendships, while also holding on to memories of past friends. So as our life continues to change, as many of us are moving to new countries and embarking on new journeys, it's important we remember a couple things as we stand on this bridge from childhood to adulthood. We are about to start the greatest improvisation ever. There is no script for this new production, no map, no rulebook, no recipe to navigate this transition. We just must embrace the guiding words of the wise: Take pride in who we are, spread kindness always, chase our dreams confidently, and cherish the whole journey, holding the good with the bad while remaining hopeful for the future. With that being said, thank you to those who have supported us: Teachers, Family, and Friends, we express the deepest gratitude for being at our side through this journey. As we commence this milestone of graduation, let this be one of many milestones in our bright future. Good luck Class of 2023! We did it.

— Shalom DeJardin,  
Senior Class President

Vilseck, Germany

## Vilseck High School

Graduating means starting a new chapter in our lives. I joined Vilseck High School as a sophomore in 2020 right in the middle of COVID. It was hard making new friends while being socially distant, being in and out of virtual and in-person school. But as the years progressed, I see what Vilseck truly is, a close-knit community of students. We have smaller classes with teachers who can really get to know us and that have made a greater impact on our lives. Because of our smaller size, VHS students can join any activity, like sports or fine arts. I personally am involved in various activities at school including 3 sports, art, student council, and model senate. Being part of a small school community has brought many opportunities for me. The best part of being at Vilseck High School is being able to travel Europe and seeing history up front! I have many amazing friends and several groups of friends because our school's student body is so closely

connected. After COVID we had to adjust to being back in person and that brought on some challenges, but like our school mascot, we continue to fly fast and soar above. Overall, Vilseck is an amazing school with teachers that care and students that come from a diverse background, together we are Falcons. I am so proud of the class of 2023 for making it through all these challenges and being able to rise above. I give the best of wishes to all the seniors from Vilseck High School in their future endeavors whether its college or career. I love you Vilseck and I love my fellow Senior Falcons.

# Wiesbaden High School

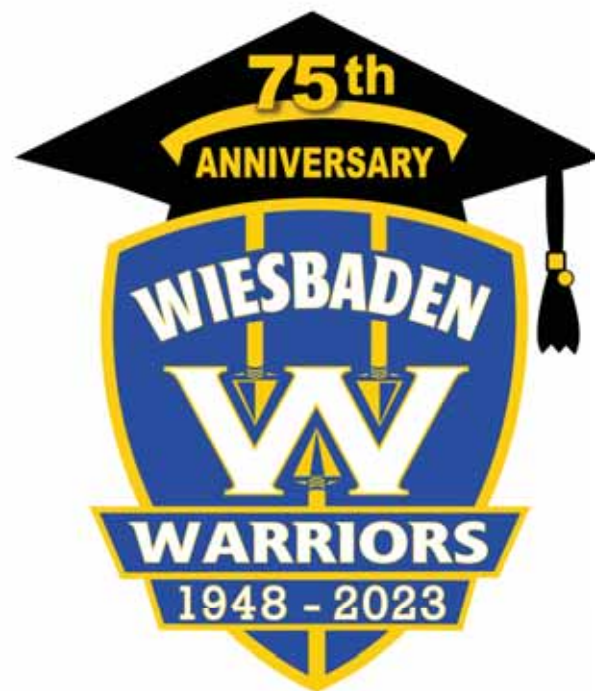

On behalf of Wiesbaden High School's Class of 2023, we would like to express our gratitude to our families, friends, and teachers for their constant love, support, motivation, and guidance. Upon reflection of our time in Germany, we are incredibly thankful for this amazing opportunity we've been given. We feel so fortunate to have had the experience of living in Europe and having been exposed to people from all walks of life. It has made us more accepting and tolerant of those around us which can only make us better equipped to address the issues our generation will face. Although our high school years did not start out as we had planned, we hope that we've all taken advantage of this time to reconnect with our families and close friends with a new focus and perspective on the things that are important to us. In many ways, experiencing the pandemic has made us feel grateful for the return to normalcy in our junior and senior years. We are also thankful for those around us who, despite obstacles, have shown

us that when the unexpected happens, you come up with Plan B and make it work! The outpouring of support from our community has been constant and generous. We will never be able to adequately express our appreciation. As we close this chapter in our lives, it is with confidence and hope that we face our future. We will always remember our time here fondly.

Congratulations to the Class of 2023!
