Seniors and fired up for a pep rally.

Seniors last first day.

### A WHIRLWIND OF A YEAR, BUT GRATEFUL YOU'VE STUCK BY US

On behalf of the Class of 2024, we would like to extend our utmost gratitude to those who have aided us throughout this roller-coaster journey of our high school careers. With so many different events obscuring our normal high school experience, there were several instances where we had to adapt and accept these new changes. Our ability to persevere was made possible by our surrounding communities. Thus, we remain immensely grateful to those who have stuck by our side despite the ever-changing environments, assisting us towards such a momentous occasion, and preparing us for the hardships of adulthood.

First and foremost, we would like to thank our wonderful counselors who have been by our sides since our freshman year, guiding us through numerous challenges, such as the pains of online learning as well as preparing us for life after graduation. We would like to thank you for guiding us in the right direction and always preparing us for the next step in our various endeavors. Whether it was our incessant nagging about schedule changes or our cricket-like silence to emails requesting a response, you all have stuck by our side through it all and for that we are forever grateful.

To our teachers, thank you for providing us with a plethora of knowledge, both academically and personally. Without your wisdom and guidance, we would not be where we are today, about to accept our diplomas and move our tassels. Thank you for working diligently to ensure that we pass our classes and are prepared for our next level of education. We remain greatly appreciative of all the time and effort you have put into making sure we reach graduation, especially after senioritis began to sink in. Truly, and deeply, we thank you for getting us through the tough times and getting us ready for the next step in our lives.

To our wonderful Principal, Mrs. Watts, who has been with us for three of our four years here at Guam High School, thank you for supporting us through our numerous endeavors. We will never forget your warm smile when you would greet us in the morning or the kindness you impart when we get ourselves into little predicaments. Thank you for your understanding and for helping us through the rough times, while keeping us out of trouble as we navigated the craziness of our high school years. Additionally, we would like to thank our Assistant Principal, Dr. Debus, who although has only been with us for a year, has been just as supporting and helpful in ensuring that we get through the year without incident. We thank you so much for imparting wisdom upon us and taking your time to help us when needed. Thank you, Mrs. Watts and Dr. Debus, for allowing us to plan and execute our class events while taking part in a successful and exciting school year. We could not have made it this far without both of you and we are beyond thankful.

To the previous graduating classes of Guam High School, who have helped to shape and guide us into the people we are today, we thank you for being our role models and showing us how to navigate high school. Upon entering the doors of the high school on our first official day as freshman, it was you we looked up to and hoped to turn into as we slowly grew and matured into the young adults we are now.

To our magnificent and hard-working class advisor, Mrs. Cruz, we are forever indebted to you. We have so much love and appreciation for all the time and effort you have put into making sure our class reaches graduation and all the milestones leading up to it. There has not been a single task, no matter how big or small, that has stopped you from helping us to succeed.

We enjoy catching you in the hallway and getting a glimpse of your infectious cheerfulness. You make our days go from glum to merry and have always been there to listen to us in times of need. You help support us, not just as a class advisor, but as a mentor and a family figure. We are truly grateful for everything you have ever done for us and we hope that we can one day return the favor.

Finally, to our families, whether big or small, to you, we are the most thankful. Since birth, you have been there for us, watching us take our first steps, speak our first words, attend our first day of school and now, soon, our last day of school. Whether you are here with us now or are elsewhere due to particular circumstances, there will always be a special place in our hearts for those we consider family. We want to thank you for always being there right by our side, raising us to be the young adults we are today. Although we may tend to be troublemakers here and there, we appreciate the continued love and support given to us. We love and appreciate you more than you will ever know, and we take these next steps hoping to show you that we have learned to be respectful, admirable young adults.

The story of the class of 2024 is a long one. We left middle school and made the transition into high school virtually. Our first day was an untraditional one and to say the least, it was hard to adapt to. Finally, getting the news that we would return to school, many of us remained excited, we would officially get to know what it would be like for high school students.

None of us were prepared for the carrying of plastic barriers, consistently wearing masks and continuously sanitizing everything. This carried on into our sophomore year as we started to get used to the measures taken to prevent COVID-19. Furthermore, as we continued with our high school careers, we came face to face with an unusual ending to our junior year, facing the horrendous sights of Typhoon Mawar. With destruction everywhere, it was inevitable that we would have to end our year early once again and quickly try to adapt to our new circumstances.

Now, as we have entered our senior year, and it is quickly coming to an end, we look back and we recognize the people who have helped us get to where we are today. Our gratitude goes out to more than those listed in this letter, there are so many people we have met along the way who have helped shape us into the people we are today. We are so incredibly thankful for all the generosity and support that has been given to us as we braced this whirlwind of high school.

Thus, as the Class of 2024 becomes new graduates, we would like to say, from the bottom of our hearts, thank you and we hope to make you all proud as we begin our futures as young adults.

Sincerely,

- GHS Class of 2024
