Brunssum, Netherlands

AFNORTH International School

AFNorth International School's Senior Class of 2022 has seen it all. We've experienced the shock of a pandemic and the resulting two-year lockdown, friends and family going into quarantine, and the disappointments of not being able to engage in our regular activities like sports and school dances. However, what stands out the most about our high school careers are the positive things, like AFNorth's wholehearted willingness to help its students through countless technical difficulties during virtual school, its integration of the outdoors into curriculums to abide by COVID-19 restrictions, and the continuation of yearly rituals like the Terry Fox Run to keep morale high. After four years of excellence, the AFNorth Senior Class of 2022 can earnestly say that we are proud to have been a part of this school.

And, as always, go Lions!

Alconbury, England
Alconbury High School

Alconbury Middle High School may be small, but we have a big heart. This year has been full of excitement as we exited the COVID-19 pandemic, finally being able to see the smiles behind the masks. From changing the lyrics to "We Are Family" to "We Are Alconbury" at Homecoming, to having our first home sports games, conferences and field trips since before the pandemic, this year has been full of Dragon pride.

I am proud to say that the class of 2022 has the most Dragon pride in our school. The seniors have been leading school spirit in hallway decorating contests, pep rally screaming matches, and over-the-top spirit wear. We have grown together as a class through events such as Senior Sunrise and Senior Synergy, and although none of us are ready to admit it yet, we already miss Alconbury. The senior class council is incredibly grateful for the support of our sponsor as well as the teachers, staff, parents, and other Dragons who have made this year amazing. Now comes the most emotional part of our school year, the part where we say goodbye. To quote Winnie the Pooh, "How lucky I am to have something that makes saying goodbye so hard." We are lucky to have attended Alconbury Middle High School, and we are lucky to call ourselves Dragons. Once a Dragon, always a Dragon!

Ankara, Turkey
Ankara High School

"What lies behind us and what lies before us are small matters compared to what lies within us." — R. Emerson

Ankara EHS, apart from being a long-term experience for some of our Seniors, has also welcomed new students like myself into its tight-knit community in Turkey's capital. Senior year has been, without a doubt, a challenging yet unforgettable journey. We have made new friendships, we have shared countless laughs, and made memories with each other. Luckily the school district permitted us to return to in-person learning, which gave us the benefit of experiencing events like prom, a senior farewell dinner at the U.S. Ambassadors' residence, our upcoming graduation on the Ambassadorial grounds, as well as international travel to once-in-a-lifetime experiences such as Prague Model United Nations. Despite the progress, my final year of high school has also taught me something fascinating about our generation and its capacity to adjust quickly and maintain resiliency in the face of situations we can't control, in particular, the global pandemic.

This year presented every one of our seven Seniors from seven different nations a tremendous challenge, from finding the perfect university fit, to completing high school early, to preparing to excel on the Advanced Placement exams we study so diligently for. However, we have been able to pull off everything we set our minds to. It flew by, just as our parents said it would. So I hope with all my heart that each one of us cherishes all the little but precious moments we have spent together because no matter how much we may want to, we will never be able to turn back time and return back to high school. This is a universal truth we have to face, whether or not we want to. The inevitability of endings also represents the beginning of new things. For some of us, it represents moving to a new country to attend university, and for others, possibly taking a gap year. Each of us will travel our own path, forging our way to success from the foundations laid by our families, education, and international life experience abroad. This journey ahead of us is what will help us find what lies within us.

Ansbach, Germany
Ansbach High School

While some might think Ansbach's biggest weakness is its small size, I believe it's our greatest strength. With a graduating class of 19, our seniors went through the good, the bad, and the ugly as a family. Like any family, we had our moments, but at the end of the day, we learned and grew together. Our class played an incredibly active role in the school, frequently working together to promote school spirit. From the representatives in student government to the hard-working morning announcements crew, Ansbach's seniors made up an integral part of our community that is sure to make a lasting impression. I can say with certainty and pride that, as we move forward, we will continue to bring our visions into reality.

Aviano, Italy
Aviano High School

When I arrived here in Aviano, Italy, in the spring of 2016, I would have never believed that I would be here today, six years later graduating from that same high school. It has been an eventful six years to get here, and that is speaking generously, but nevertheless, we have done it, we are at our final days here, and one cannot help but reflect on our past. It seems like just yesterday we were a bunch of freshmen scrambling through the halls looking for our new lockers, just to fumble and fight with the locks. We looked at the seniors in awe and aspired to be like them one day. Well, fellow classmates today is the day, we are the seniors now, ready to take the next step forward in life, and one cannot help but to reminisce on our time here on such a sentimental day.

Aviano has been such an influential place for us all. Even though it may have been trying at times, with COVID-19 tormenting our last three years, we have all persevered through the obstacles that have been thrown at us. It has been an incredible last four years with everyone, and unlike any other high school experience. We have been through the ringer, had friends come and go, classes go virtual, in person, and back again, and several other hardships, and through all of this, we are here.

To my fellow classmates, it has been one crazy time, and thank you for making it so hard to say goodbye. I will forever cherish the memories, opportunities, and friendships made here at Aviano. AHS, the children that we once knew are gone, our future is not a distant reality anymore, it begins now. Class of 2022, we did it!

Manama, Bahrain

Bahrain Elementary High School

Bahrain School is not only the typical mix of military and DoD civilian students, but it also blends the local Bahraini population, dorm students and over 22 different nationalities to form our unique graduating class and create a school culture that is incomparable to any other in DoDEA. The chance that we have to live, laugh and learn with students from such diverse backgrounds is one that truly sets Bahrain School apart. The Class of 2022, with a little over 50 students, may seem small but we are beyond mighty. With students who excel in extracurriculars that span STEM, humanities, leadership, athletics and more, our senior class is strong in its representation of Bahrain School, making it known that even if our island is remote, we are not to be forgotten. It is no secret that our years of high school have been far from conventional, even without unpredictable world events, a time at Bahrain school would have been far from ordinary. The people we meet and the experiences we share living in the Middle East are special and cannot be replicated anywhere in the world. Without the strengths of parents, siblings and friends, Bahrain would not be the unique and amazing location that it is. Our Bahrain School Falcon Family is truly like no other.

Baumholder, Germany

Baumholder Middle High School

Baumholder Middle High School is unique due to its small size, and the senior class is no different. The small size contributes to the sense of community offered. Baumholder is a community unlike any other, whether you've been here your whole high school career or are just now joining our crew. We may be small, but our size enables us to truly come together as a family. Our Senior Class of 2022 is an extremely diverse and unparalleled group that maintains a focus on laughing and learning together. Everyone has something different to bring to the table, whether through various sports, extracurriculars, or academic endeavors. We can't express how thankful we are to each other and those who have supported us along the way. As eager as we are to step out into this world and find our own communities and purposes, "Once a Buc, always a Buc!"

— Madison Brech

Baumholder Middle High has always brought the best out of each and every student, including myself. Being part of a smaller community is definitely a big change, however what makes us great is that you'll always feel that connection between one another that joins us together as one. As a Senior Buccaneer, I would say we're definitely not one of those bigger schools with all the luxurious features that come with it, but what makes our school unique is that every opportunity given is never taken for granted. We've definitely found numerous ways to make this a year one to remember by doing special events and activities, such as spirit weeks, Homecoming, teacher vs. students games, Sports, Clubs, and many more. Moments like these don't only allow us to thrive, but they are ways that help bring the school spirit to life. We started the school year still dealing with the discomforts of mask wearing and COVID-19 isolations. Despite those discomforts we still managed to continue on and support the needs of each student to fulfill their desires. As the year went on, it was a wonderful experience hearing and getting back to our more comfortable ways in school. In addition, our athletic programs did an astonishing job bringing home two championships to the rock in football and basketball. Also, there are stellar students that go above and beyond to support our community, such as our Boys and Girls club winner of European Youth of the Year. These are just some examples I'd like to show that reveal how being part of such great programs as a Buccaneer gives you many outlets to reach your fullest potential. Go BUCS!! #Small school with big results.

Brussels American School

"Life is like a box of chocolates, you never know what you're gonna get." This school year has challenged us all. With each challenge we have overcome, it has presented us with rewards and memories we would not have made otherwise. After two years of wearing masks, things are beginning to return to normal. Our homecoming at the beginning of the year was in masks, and now we look forward to prom where we can dance mask-less and have a catered dinner together.

Our sports teams are back, and our school spirit is stronger than ever—go Brigands! For the first time in a couple of years, our Brigands' sport teams have been traveling to the Netherlands, Germany, and England for competitions. At the end of the winter season, we organized an interscholastic volleyball tournament where teachers and students from every grade interacted amongst each other in an all-out volleyball competition.

Our senior class recently had our college decision day; we are finishing up our AP exam week and are preparing to attend track and soccer European championships next week. As school is coming to a close, we are celebrating our last moments in school with a senioritis spirit week. I look forward to seeing my classmates succeed in the future and the places they will go as they graduate from Brussels American School.

Hohenfels, Germany

Hohenfels Middle High School

Ralph Waldo Emerson once said, "People wish to be settled; only as far as they are unsettled is there any hope for them." As the graduating class of 2022, we have big changes quickly approaching. From joining a military academy to living in a van down by the river, our graduates are blessed with an abundance of choices and opportunities that promote independence.

The vastness of these opportunities also puts into realization the unsettlement new graduates face as we look ahead to the transition into post-secondary pursuits. Having so many choices while venturing out on our own scares many people. The many changes that military communities face promotes resilience. Our graduating class at Hohenfels Middle High School is small, but because of the constant change of student dynamics throughout the years, many of us do not know our fellow classmates. For example, since my freshman year of high school here at Hohenfels, I have had 5 people in my class stay here all four years and I'm not even that close to any of them. People arrive here and leave in 2 to 3 years.

With local, national, and international challenges we've faced, we've also had to make it through high school, which I feel would be one of the worst experiences any average person would ever face, but the students here seize the opportunity for change and independence. One thing that our small class seems to have in common is our desire and anxiousness to leave our grade school years behind and move forward.

So with that being said, the large change we are celebrating today is nothing to scoff at, but nothing we can't overcome. The resiliency we have learned the past few years prepares us more successfully for the future than for previous graduates. I feel as if my relationships with my teachers and friends will always be valuable to me, and I will look fondly back on my high school years. I won't wish to be back because as reflected in Emerson's statement, we have faced many unsettling changes during our high school years in which we have the massive opportunity to grow. Emerson also advises to "Make the most of yourself, for that is all there is of you."

CLASS OF 2022 GRADUATES!

Congratulations Emily Anne!

I couldn't be more proud of the young woman you have become! There is no stopping you! Go get it! - Mom

Congratulations!

It's been our privilege to watch your growth and achievements. Our hearts are full! Mom, Dad, Gwen

Congratulations!

We are extremely proud of your academic and athletic accomplishments. Your star is just rising, we will watch it shine! Mom & Dad

Congratulations!

OMG! Great Job! You did it Stefanie! Do your best and enjoy college and the Army! Love, Mom, Dad, & Natalie

Congratulations

We're proud of you and your caring heart. "Whatever you do, work at it with all your heart." Col 3:23 Love, Momma & Poppa & Aurora

Congratulations Kaitlyn!

We're so proud of you and all you've accomplished. Your future couldn't be brighter! Love, Dad & Mom

Congratulations Dacia!

We are so proud of you! May God continue to bless and guide your steps always! Love you! Love, Dad & Mom

Congratulations Michael!

We are proud of the person you are becoming. Keep working hard and the world will be yours! Mom & Dad

Congratulations Antonia!

We are so proud of you! Love, Mom, Dad, and Brian

Gabriella!

We are extremely proud of you and best wishes in your future endeavors and successes! Stay strong and resilient! Love Mom, Dad, Colton, Nana, and Scout!

DJ

Remember to always set goals, then work hard to achieve them. FAU here he comes! Love, Mom, Dad, Ty, Jaichelle, & Zariah

Congratulations Greere!

You're crushing it, Kiddo! And when you're unsure, just look around. You'll remember someone is standing right next to you. Mom and Dad

Congrats, Matthew!

Best of luck in your adventures. We can't wait to see what life has in store for you at Virginia Tech & beyond! We love you! Mom & Rick, Dad & Penny, Jon, Anya, Mike, Mary, Dan, and Tommy

Jack

You have a touch of the future. You're a hard charger. We're proud of you. Love, Mom and Dad

Congratulations Logan!

We are so proud of you! Love, Mom, Dad, Gabby & Norah

Congratulations Joseph!

Jojo you did it! We are so proud of you! Mom and Papi

Kaiserslautern, Germany

Kaiserslautern High School

Looking back at everything, it feels surreal that 12 years of hard work and dedication, 12 years of making memories and friends, and 12 years of working towards a singular goal all lead up to one final moment. One that is filled with a mixture of anticipation as we all think of what's to come.

After two years of attending school with masks on and events canceled, we finally got to go back to the high school experience that we started with in our freshman year. Masks came off and we got to enjoy the last few months of school as if they were "normal."

We all now stand at the finish line bonded by the same experiences, whether it be the terrible senioritis that hit us all or our failed attempt at a senior prank. We're all used to moving from place to place and saying our goodbyes, but knowing that this will be the final one makes it even more bittersweet.

Lakenheath High School

The Class of 2022 has seen movement on a colossal scale. We have grown in experience and intelligence, made friends and made mistakes; we have traveled, adapted, and achieved personal goals that we never thought possible. In the midst of this personal movement, the world around us is shifting drastically. We are experiencing a pandemic, global issues of human rights, times of war, and an increasing dependence on technology. At times we feel like spectators, locked in place by the constraints of our age, watching the world whirl around our heads at a startling pace.

This feeling of being stuck has the potential to stall us and scare us away from making change. However, as a group, military children persist. We redefine what it means to be resilient. We not only recover from rapid movement and change, we also thrive within and grow from it.

We are not standing idle as the world moves around us. We are all contributing to change, whether big or small. Our class has not only witnessed, but we have actively been a driving force in the movement towards bettering mental health. We work for these causes within our school, our clubs and in our larger community. This is just one incredible example of how our class has pushed for impactful and lasting change.

Our class's ability to make large-scale change with great motivation and personal drive is nothing short of incredible. We have all worked through hardships with grit and grace, but we will not be remembered for the adversity we face. Instead, we will be remembered for our lasting impact on the school. We are not defined by the time we are in, but what we do with that time. Now, it is our time to move on to our next challenge. We are faced with a world full of change and opportunity, and with the lessons learned during these past four years, we know we are all ready to enter the world and make a difference.

Naples, Italy

Naples High School

The class of 2022 started this school year with determination. We held out hope for a normal school year, full of in-class lectures and on-campus activities. This conviction didn't come about through any divine inspiration or passionate rebellion, but through complete and utter exhaustion at the world's circumstances. COVID-19 had ruined two graduating classes' years before this—we wouldn't let it ruin ours.

Hundreds of compromises had to be made. Our Homecoming dance was outside on an old basketball court; but this didn't stop the student council and dance committee from decorating the venue in beautiful lights and shining colors. All of our musical performances were done out on the football field as the parents sat on the stone bleachers, but that didn't stop the melodies from blazing through. Our final school play had to be prepared within two months and performed inside the alley between our two school buildings, however, the passion of the cast and crew won the audience over and delivered an amazing rendition of "The Little Shop of Horrors."

Throughout this entire senior year, the class of 2022 hasn't let national restrictions and difficulties stop them. We've overcome our fear and uncertainty about the present and now look forward to a wonderful future; not because of how good it will be, but because of how amazing we will make it. It's due to our inspiring teachers, parents, and staff that we were able to enjoy so many activities this year; it was their determination that fueled our own. The class of 2022 is being released onto the adult world—the only question left is if the world is ready for it.

Ramstein, Germany

Ramstein High School

Walking through the doors of an unfamiliar building was an odd beginning to senior year for the Class of 2022. We said goodbye to the familiarity of our decorated senior hallway filled with memories and all that we knew so well. This year, it wasn't only the freshmen who were lost on the first day of school. As the first graduating class from the new Ramstein High School, we had to set the bar high for other classes to follow. In the fall, we hosted the Spooky Walk fundraiser, where seniors hosted a haunted walk-through of campus and scared those who were brave enough to show up. We raised thousands of dollars and had an enjoyable night interacting with the Ramstein community. We celebrated the end of our last first semester of high school with a senior night where we wore pajamas, played games, and danced our hearts out. To give thanks to our teachers we celebrated by hosting a trivia night, Seniors vs. Seniors, where we tested the knowledge of our smartest students and the Ramstein teachers. Seniors gloriously took the win! Fortunately, we had a homecoming, almost all sports, and a senior prom. Masks became optional and we finally got to see our beautiful classmates' faces. Our senior year was ultimately great thanks to the students. We dealt with the unimaginable and made the best of our entire high school experience. Thank you to those who supported, listened, and pushed us along the way. You shaped Ramstein High School's class of 2022 into respectful, compassionate, adaptable, and determined Royals who will continue to use what they have learned in their future endeavors. Finally, thank you to the Ramstein High School Class of 2022 for the friendships and memories.

Rota, Spain

Rota Middle High School

The DGF Rota High School Class of 2022 started our final year with what seemed to be another dreadful year of "Covid Learning." After having experienced remote learning during the previous school year, we feared having to go through it once more. Thankfully, conditions improved, and we have had the closest thing to a "regular" school year since 2018-2019. We were able to travel and compete for sports once again, we were able to host dances, and we were finally able to rid ourselves of masks towards the end of our senior year.

Persistence, resilience, and the ability to bounce back from setbacks are qualities that characterize our class, as well as our great sense of ambition. We are the graduating class with the highest average GPA in the school's memorable history. Not only do we excel academically, but we are also a class whose members are heavily involved in a variety of extracurricular activities.

The DGF Class of 2022 is the largest graduating senior class this school has seen in decades. Out of our 47 graduating seniors, 23 of us have been together since our freshman year and have experienced the entire high school journey together. This is rare in a DoDEA school. In addition, 7 of us have been with each other since elementary school, some even since kindergarten! We have also welcomed many others who joined us along the way to complete this outstanding class. We were fortunate to have 6 new seniors enter this year, again something unusual for a senior class in a DoDEA school.

We would like to acknowledge and thank each and every senior from our graduating class. Not only did we make it through, but we all did it together. Our journey finally comes to an end, but we know that we will all find great success in our lives after high school. A special thanks to our teachers who had to teach us in challenging times, but who never gave up, were supportive, and remained a constant in our educational journey.

Congratulations class of 2022!

SHAPE American High School

SHAPE High School Class of 2022 is full of bright and adventurous students who aren't afraid to shape the world (pun intended). We've had to face challenge after challenge, never getting to experience that ideal high school lifestyle. However, we have proven to ourselves and society that we aren't afraid to take risks and think outside the box.

When we started high school we were merely kids trying to find our way, now we are leaving as young adults with big plans and dreams for the future. We are applying everything we learned from our teachers, parents, friends, and coaches to help us take the next step in our journey of life.

For the last four years we couldn't wait to graduate, but now that the time has come to leave, we are faced with anxiety and sadness. Although some of us will be oceans apart, we will always carry a little bit of SHAPE in our hearts. So even though this is the end of a chapter, we will give the Class of 2022 one more challenge—to strive for success and reach our full potential. Now it is time for us to write the rest of our story. No matter what the future holds, we are ready to face it with great interest and open minds.

Sigonella Middle High School

How often can one say that they started their senior year virtual because the school was on fire? How often can one say that they left for champs, a day after their house gets flooded with two feet of water? Well, Sigonella's class of 2022 can. Despite having an extremely difficult time, we can say we made it. The fastest year of our lives. When I came into Sigonella my sophomore year, it was a drastic change in environment. With factors such as COVID-19, a new school, a new country—I recognized the distinctiveness of our class's students. I have pride in my class, as together we've achieved many successes while overcoming unique challenges, and we have been so fortunate to be involved with such an incredible school and community. Our class is composed of some of the most intellectual, athletic, and artistic students I've ever met. The diversity of our class, our perseverance, our experience is what makes us Sigonella Jaguars.

Reflecting on our senior year—the most impactful year of our high school lives—our class has devoted so much, not only for our school, but towards our community as well: From hosting and advocating fundraisers for social changes, such as human trafficking through an organization titled "Dressember," which raised over \$10,000, to sending donation and relief packages to refugees in Ukraine. In addition to this, our seniors have been able to make, break, and continue senior traditions, such as reinstating pep rallies, senior beach day, and murals. Thus, creating indispensable memories that will last a lifetime—living through without realizing these memories would be a fundamental part of our lasts: our last championship, our last get together, our last time walking through Sig's halls as a senior.

As a class, we have surely grown as individuals, but we've grown together as well. High school is high school, and no matter what trials and tribulations we have faced, what we have learned is what makes us who we are. These trials and tribulations will only continue to be a part of our lives, and no matter what obstacles we face, we will continue to strive for a better version of ourselves, whilst living by our own definition, virtues, and aspirations. Although this is our last, it is also our new beginning. So a message to the Sigonella Class of 2022: Thank you, and no matter what you choose to do in life, pursue it with confidence and compassion ... And P.S., how many seniors can it really take to paint a mural?

Spangdahlem, Germany

Spangdahlem High School

Being a student at Spangdahlem High School has been a rewarding opportunity. It has allowed me to experience high school in a diverse environment, learn in a community where everyone's ideas are welcome, and everyone's opinion is heard. We're extremely grateful for all the faculty, parents, and friends who have helped us along the way. I can finally say we see the light at the end of the tunnel.

This school year has been remarkable, and students are getting the feel of what high school may have been like before the pandemic. We have been able to have in-person sporting events, dances, and welcome visitors inside of the school. This is heart-warming because students are able to come together more frequently in person. We were able to celebrate together during student council pep rallies and celebrate each other's achievements in JROTC and NHS. Spangdahlem HS hosted a "Friday Night Lights" football game, which many students never had the opportunity to attend, due to starting high school during the pandemic.

This school year has been a great way to end our high school careers as the graduating class of 2022. We are grateful for the opportunities that we were afforded this year. We have been able to host events aimed at providing us as high school seniors the opportunity to connect and share our experiences with one another. We have been able to share what we plan for our next steps in our upcoming adult life, host a senior-led karaoke night, senior class breakfasts, and even senior celebration parties. These events have allowed us to have good times, make memories and come together as Spangdahlem's class of 2022. The past four years have flown by and all I have to say is "what's next?"

Stuttgart High School

STUTTGART HIGH SCHOOL - SENIOR CLASS 2022

The past two years have been tumultuous, to say the least, for the Stuttgart High School Senior Class of 2022. Years defined by once-in-a-century pandemics and unprecedented political and international events have presented an array of challenges. The Class of 2022, however, did not let the reality of the present hinder their cumulative motivation to succeed. In the past two years, this class has learned and embraced tolerance and flexibility, allowing for engaging events to be done in redesigned and truly innovative ways. We have worked with each other and planned multiple class events in order to enhance our Panther Spirit. It is crucial to say that none of this would have been possible without the unwavering support from faculty, staff and administration at our school, people who are integral to our class's phenomenal high school experience. Although there have been bumps along the way, the resilience and adaptability of the SHS Senior Class of 2022 have redefined our high school experience, making it an exciting and unforgettable time of our lives. It goes without saying that the lessons we have learned within the concrete walls of our school will remain with us for the rest of our lives. Panther Pride!

Vicenza, Italy

Vicenza High School

As I reflect on not only this year but half of our high school experience, I ask myself what it resembles most. Oftentimes I ponder for quite a while not finding an answer, but the last time I asked myself I couldn't help but think we've lived a 90's album with the way we've taken part in evolution one way or another. Not only evolution as in the gradual development of us as individuals, but evolution as in the words that read "Storms will come, this we know for sure. Tell me, can you stand the rain," sung by Boyz 2 Men, but as you should know, written by New Edition. At this point, this moment right now in which we sit on the bridge that takes us from teens to young adults, it's safe to say we all stood the rain as if it were never there. So, with that being said, I'd like to thank all the teachers, parents, guardians, friends and family, and study websites that have helped us make it to this point. You've been our umbrella in this rain and now it's on us to produce the rainbow we love to see after the storm. Class of 2022, I think it's safe to say we're through.

Vilseck, Germany

Vilseck High School

There is something so special about being able to know the name of, not only everyone in your class, but practically the entire school. As students of Vilseck High School, we are also privileged to have the faculty and staff know us each individually and care for us on a personal level. Vilseck is a small community, but it is a home.

The VHS Class of 2022 was lucky enough to plan a traditional homecoming dance and bonfire in 2019, just months before COVID-19 hit. We were able to host a bingo night in place of senior prom for the class of 2021, who unfortunately could not escape the pandemic. And in the past four years we have planned countless pep rallies and spirit weeks, decorated the hallways of the school, had endless fundraisers, and strived to make Vilseck a better place for our peers.

In this joyous and opportunistic time of our lives, we cannot forget to thank some people along the way. Being military children has taught us skills that many adults still struggle with. We are resilient, optimistic, and open-minded through change.

With friends that come and go, rotating teachers, and deployed parents, we have learned to adapt to new situations and grow for the better. We are so lucky to be able to start new chapters of our lives with this skill in our front pocket, and we can thank the military community for that. As graduates we could also not be here without the love and support of our parents and guardians. To those present, as well as unable to be here at this time, we wholeheartedly thank you for your unconditional guidance and care.

A big congratulations to the Vilseck High School graduating class of 2022!

Wiesbaden, Germany

Wiesbaden High School

On behalf of Wiesbaden High School's Class of 2022, we would like to express our gratitude to our families, friends, and teachers for their constant love, support, motivation, and guidance. Upon reflection of our time in Germany, we are incredibly thankful for this amazing opportunity we've been given. We feel so fortunate to have had the experience of living in Europe and having been exposed to people from all walks of life. It has made us more accepting and tolerant of those around us, which can only make us better equipped to address the issues our generation will face. Although our high school years have not gone as we had planned, and due to cancellations of sports, drama, and all other activities, it has had its fair share of disappointments, we hope that we've all taken advantage of this time to reconnect with our families and close friends with a new focus and perspective on the things that are important to us. In many ways, this experience has made us feel grateful to those around us who, despite obstacles, have shown us that when the unexpected happens, you come up with Plan B and make it work! The outpouring of support and concern from our community has been constant, generous, and, at times, overwhelming. We will never adequately express our appreciation. As we close this chapter in our lives, it is with confidence and hope that we face our future. We will always remember our time here fondly.

Congratulations to the Class of 2022!
