Dear AFNorth Class of 2026,

A few of us will recall how for years we were known at AHS as “that 6th-grade class.” Then COVID came, and we didn’t seem so bad anymore. As a not-so-typical DODEA school, we’ve been blessed with experiences unique to our multinational setting: Canadian and German sections introduce us to a host of NATO families, reminding us that, even if the world doesn’t always reflect it, we have more in common than not.

We all want to succeed in everything that we take on, and that is something that makes our class so special. But beyond that, it’s the everyday moments, the seminar adventures, helping each other out before tests, or the chaos of reminding everyone about wearing our senior hoodies and bringing food for senior snack days that made this experience ours.

We didn’t always have everything figured out, and we didn’t always agree, but we showed up for each more often than not. We all enjoy being a part of the whole, and we all love a good senior snack day. Among us are future leaders, talented musicians, artists, and D1 athletes and, most importantly, a group of people who made this school feel like a home. It’s strange to think that the things that felt so normal will soon be memories. Wherever we go next, I am confident it will bring both success and meaningful transformation. AFNorth has shaped who we are, and I know we will leave a lasting impact.

CO ’26 signing out.

— Nina Wiley
Senior Class Student Council Representative

Alconbury, England

Alconbury High School

The Dragon Class of 2026 is an incredibly close-knit group. Although we are just twenty seniors, making us one of the smallest, if not the smallest, graduating classes in DoDEA, we have made a strong impact on our small school and have been involved in nearly every part of student life. From athletics and music to a variety of clubs and activities, our class has stayed active and connected, contributing to the culture that defines our school.

This year, the senior council has worked hard to continue meaningful traditions such as senior sunrise, senior sunset, senior synergy, and the senior lock-in. At the same time, we introduced and expanded events that brought our class even closer together, including Fall Fest, a successful “Pie-A-Senior” fundraiser. Each of these moments helped strengthen the bond within our class and created lasting memories during our final year.

Our futures are bright. Many members of the Class of 2026 have been accepted into colleges and universities, while others are pursuing different paths after graduation. After we leave, we will be spread across many places, some staying here, some returning home, and others heading somewhere entirely new.

The senior class is grateful for the support of our teachers, staff, parents, and fellow Dragons who have guided us along the way. In every case, I am confident that the Class of 2026 will carry forward what we have learned and rise to meet new challenges. Once a Dragon, Always a Dragon!

Ankara, Turkey

Ankara High School

Although some of us have spent their entire lives in Ankara, while others have only been with us for a month, we've made unforgettable memories that have, and will continue to, influence our lives in ways we just might not know yet. Throughout high school it's a tendency for teens to look forward and daydream of the time they finally get to graduate and start "adult" life. Frankly, that tendency has also accompanied us into our senior year. Months and months of research, applications, and the stress of the unknown—all seemingly justified for the cause of a "greater future." Yet, come spring, suddenly we realize our days in this school are numbered. The countdowns turn from harbingers of jubilation into a constant reminder that this chapter of our life is done, and that we have no choice but to face our future.

This time next year, in light of the multicultural nature of our class, we will all be anywhere but Ankara. The whole world is up for the taking and we will surely take advantage of it. Yet, under all the excitement and appreciation for the new and shiny—Ankara will always linger in the depths of our minds. Thus we, the Class of 2026, wish upon all those who share the burden of uncertainty to indulge in the present. To savor the moments, though yet unvalued and much overlooked, which you will never find yourself back in. Let yourself make the memories you will cherish forevermore.

Ansbach, Germany

Ansbach High School

The Ansbach High School Class of 2026 is celebrating more than just a milestone; we celebrate a journey defined by perseverance, growth, and the unique bond of a small school. Here, we are a community. We've had the rare privilege of building deep, interpersonal connections, knowing each other's stories, building friendships, and helping each other.

Because of our small class size, we didn't just pick one path; we did it all. We are the same people who spent Friday nights on the court, Monday lunches in club meetings, and weekends under the theater lights. Whether we were balancing a sports schedule or leading a club while studying for finals, we showed up for each other. That's the beauty of this class—we are athletes, artists, and leaders all at once.

The biggest inspiration for me is that we continue to advocate for ourselves with a confidence modeled by the incredible parents and teachers behind us. To our parents: thank you for being our loudest cheerleaders. Your support was the encouragement that kept us going through the hardest weeks. You taught us that our perspectives matter and that standing up for what is right is always the path to take.

Class of 2026, as we move on to greater things, never forget the importance of truly knowing the person standing next to you.

As Senior Class President, I'm proud to celebrate the Aviano High School Class of 2026 and everything we've accomplished together. As military kids, we've learned how to adapt, stay strong through change, and build friendships wherever life takes us. Those experiences have shaped our class in a special way.

Graduation is the start of a new chapter. Whether we head to college, the military,

careers, or new adventures, we'll always share the bond of being part of this class.

Thank you to our families, teachers, and staff for supporting us through every move, challenge, and success. To my fellow graduates, be proud of how far you've come and ready for what's next.

As the lead representative of Bahrain School's Class of 2026, I believe I've seen firsthand the unrelenting grit of our class. In the time leading up to the present, I have continually been awestruck by my classmates' ambition, both inside and outside of the classroom. It is rare for a group of people with such firm goals to also possess a genuine kindness reflected in their actions and interactions with one another. These qualities have not only allowed strong bonds to form, despite students coming and going each year, but have also built a community grounded in respect, joy, and understanding.

Through Bahrain School and, by extension, the Class of 2026, I have gained an invaluable understanding of community and teamwork that I will carry into my post-graduation and professional life. Addressing the recent disruption to our senior year, while there may be a temptation to feel powerless, I believe our class has done an incredible job of maintaining high spirits. We have certainly redefined the idea of a "Senior Skip Day." Thankfully, we are all safe, and despite the distance, many friendships remain strong, keeping our community alive.

While I miss our class events, joking around at lunch, and being close to those I care about most, I can't help but feel an overwhelming sense of optimism for the future. Through this shared experience, even if we may feel the opposite, we have grown closer to one another. Our qualities I take so much pride in continue to shine, and I am certain they will carry forward in everything my classmates go on to achieve. Our story is not one of bittersweet good-byes but a testament to the power of resilience and love under any circumstance.

— Dean Hansen
Senior Class President

Baumholder, Germany

Baumholder High School

As you prepare to cross the stage and leave these hallways behind, take a moment to consider what you've accomplished, and look at how far you've come. Attending school on a base in Germany has given you a perspective most people your age only read about. You've mastered the art of the "PCS goodbye," navigated the complexities of life abroad, and built a community that spans oceans and shapes you in ways you may not fully realize yet.

Whether you are a "Lifetime Buc" who's been here for the last 17 years, or you joined the crew a few short months ago, you are a vital part of the BMHS legacy. Being a Buccaneer is more than the mascot on your jersey; it's about the spirit you carry. You are resilient, adaptable, and fiercely independent. And those qualities are exactly what will carry you forward. As the saying goes, "A ship in harbor is safe, but that is not what ships are built for." You've already weathered moves, transitions, and unfamiliar places, proving that you're meant for open water and the kind of discovery that only comes from daring to set sail.

So, as you prepare to pull up anchor and set a course for new horizons, remember what you've learned here at BMHS. Keep that Buccaneer boldness in your heart, and never forget: Once a Buccaneer, always a Buccaneer.

The Brussels Unit School (BUS), (formerly Brussels American School and still often called "BAS" by this year's seniors), class of 2026 consists of 18 students that will represent 9 different nations at our graduation. The international nature of our class has offered us the unique opportunity learn about different cultures and develop friendships and bonds with people from many different backgrounds and nations. Though we are a small class, we have demonstrated excellence in academic, athletic, and extracurricular environments. We often describe our class as feeling like a large extended family of cousins because of the close-knit relationships we have formed due to our small size and the many years we have spent together. We often spend our days with the same individuals in almost every class, at practice, and outside of school. From joining together on the field to watch the sunrise on the first day of our senior year, to having a whole class Christmas party and gift exchange, or to meeting up in Brussels to hang out, we have taken advantage of the unique bond our small school has afforded us. Though our high school experience is far from "normal", the ability to know your classmates so well and develop such strong relationships is the best gift BUS (BAS) has given us. This unique bond will make it all so much harder to say goodbye to this group in the coming weeks. Though we will scatter worldwide post graduation, we are sure that success will follow our graduates and cannot wait to see what we all will achieve. Go Brigands 2026!

— Brussels Unit School Student Body President

Hohenfels, Germany

Hohenfels High School

Helen Keller once said, "Alone, we can do so little; together, we can do so much," and our graduating class reflects that more than anything else. To people outside of Hohenfels, our small size could be seen as a disadvantage—limited social opportunities, fewer extracurricular options, and the "Fishbowl Effect" can be daunting to those who have never experienced being at a tiny school. But to us, it has been something else entirely.

Our class may be small, but it is tightly bound in a way that larger schools often can't replicate. Together, we've watched each other grow up, and we have made memories together that could last a lifetime. We've stayed after school together to create banners, pushed each other through waves of "senioritis," and learned how to show up for one another in both small moments and big ones. Those shared experiences have shaped who we are just as much as any classroom ever could.

There's often an expectation that because there are only 28 of us, there is only so much we can accomplish; we have learned together that expectations do not always equal reality. Within this group are athletes, scholars, and creatives who consistently exceed those expectations that try to bring us down. Our achievements are built on the encouragement and "no one gets left behind" mentality that we have cultivated throughout the years.

Being part of the Class of 2026 has meant more than just going to school together; it has meant growing into ourselves together. And while our future paths will take us in different directions, the pride and connection we've built here will not stay behind. I can say with certainty that we will carry Hohenfels pride wherever we go.

Serving as the Kaiserslautern High School's Senior Class President has been one of the greatest honors of my life. I have been fortunate enough to lead alongside my Vice President, Briana Shields, my right-hand man, whose constant support and dedication helped guide every decision we made. With the other class officers Ryann Philips and Hannah Pratt we built a team with trust, effort, and ultimately school pride. This year was filled with unforgettable moments, especially our Senior Sunrise, where we came together to celebrate the beginning of the end. We also had a class trip that was planned through our Senior Parent Association. Our seniors traveled through Italy making memories that will last a lifetime. As Mac Miller once said, "No matter where life takes me, find me with a smile." I truly believe that our class will achieve great things, whether our paths

lead to university, trade school, service academies, military enlistment, or still figuring it out. It pains me to know that one day this will all be distant memories, but with sadness comes gratitude. I appreciate my classmates who turned my rainy days into sunshine and rays, and I hope I did the same for others. Finally, I'd like to thank everyone who has supported the senior class from our faculty representatives Mr. Matthew Johnson and Mrs. Nicole Oval to our senior parent association. #classof2026

Lakenheath, England

Lakenheath High School

Class of 2026 - It feels like just yesterday we walked up the stairs of Lakenheath High School for the first time. We were excited, anxious, and a little overwhelmed. There were so many buildings! However, this last year the days felt a little longer and it was a struggle to start our mornings at 8AM. But now that we are so close to walking across that graduation stage, I want us to take a moment to reflect. To look beyond the seemingly endless assignments, the fatigue of long distance sports travel, and the feeling of burnout after taking multiple AP exams. There were so many incredible moments: the friends we made both here and abroad at athletic events and other opportunities like Model United Nations, Creative Connections, and Honors Music. Lakenheath High School really is "more than just a classroom", it has prepared us to take on the challenges of the world.

We now find ourselves again excited, anxious, and a little overwhelmed by what lies ahead of us. We will cross countries and continents and scatter like dandelion seeds. Though distance will separate us, we will remain united through the shared foundation of memories which brought us together. Always the Class of 2026

Even before we began our senior year, we were told that now was the time to get serious and start acting like adults, because soon enough we'd be in the real world.

As the end of our high school chapter is fast approaching, I realize that the moments that made this year special were not due to our newfound status as seniors and proximity to adulthood, but rather through exploring and rediscovering our childhood selves.

It's easy for us, as the oldest in the school, to dismiss the knowledge found in our youth. Lessons we learned in the sandbox long ago about how to make a friend reemerge in the seemingly unconventional bonds we have formed with each other this year. Elementary holiday parties are now mirrored in the potlucks we've hosted, and the bread we have broken together.

Though we are about to receive our diplomas, a physical representation of all we have learned over the last twelve years, it is equally important for us to acknowledge what we do not know. As we graduate from one school, we begin a new sort of education in the school of life. Let us take notes from our younger selves about how to be open and curious about the opportunities ahead of us. Even though we are now so "old and wise," we need to remember the value in seeking all that we do not know. I challenge each of us to remember that this year is not only a celebration of the work we have put in during high school, but also a whole lifetime of learning and maturing. Our accomplishments are a reflection of every version of ourselves – our work and willingness to grow – and by acknowledging that we open ourselves to the wonder of new possibilities.

We came into high school not knowing what to expect from the next 4 years. We were unaware of what the future held for us, but we made the most of our high school years. We joined clubs, sports, and participated in school events like our pep rallies and Spooky Walk. These events helped make our time at Ramstein High School more memorable. As the years passed, we met new teachers, made new friends, and grew closer as a class.

Senior year is a year of many 'lasts'. Last football game, last pep rally, last homecoming dance. For the Class of 2026, the high school years either flew by, or dragged on. Whatever you plan on doing after graduation, just remember that you finished 13 years of schooling, and the world is now your oyster. Live life in the present, because you'll look back at these days someday, and you want to be proud of what you accomplished. No matter what you plan to do after graduation, a new chapter of your life is beginning, so live it to the fullest. To quote Oscar Wilde, "To live is the rarest thing in the world. Most just exist, after all."

As the Class of 2026 approaches the end of our high school journey, we are granted time to reflect on all of the experiences that shaped us at Rota Middle High School. Whether our seniors have been here since elementary school or transferred recently, Spain will always have a lasting impact on our lives. It has become another home for all of us, one we will soon call our alma mater. We have had unique opportunities to experience various cultures on the beaches of Spain and in other extraordinary countries. We've grown as a result, enriching our perspectives of the world and enhancing our abilities to make a positive impact with our diversified backgrounds and open-minded ideals.

Our class prides itself on our profound involvement in the school community, with all of us meaningfully contributing to diverse extracurricular activities, including athletics, NHS, drama, Educators Rising, Creative Connections, and more. We have built a legacy of success, perseverance, and commitment to the school that will undoubtedly be remembered. Not only do we have notable achievements from our time in high school, but we have created lasting memories together. Some of which include competing over a golden ticket in a Wonka bar, volunteering at a shelter for trafficked women and children, or taking far too long to decide on one backdrop for the Homecoming dance. Despite the differences we have in interests, hobbies, or personalities, we found common ground as a class. Now as we all begin to follow our distinctive paths around the globe, we carry these shared experiences with us into the future as the Rota MHS Class of 2026 continues to grow and prosper.

— Jourdan Timmons
Rota Middle High School Class of 2026 President

Mons, Belgium

SHAPE High School

"We proudly celebrate the coming graduates of SHAPE High School, a remarkable class representing 27 countries and speaking an impressive 29 languages, a true reflection of our school's global community. United by shared experiences and diverse perspectives, these students are ready to take their next steps across the world—matriculating to European and American universities, pursuing academic excellence on both continents. Others have chosen a path of service, enlisting in the militaries of their respective nations, carrying forward a tradition of leadership and commitment. Wherever they go, SHAPE graduates leave prepared to lead, serve, and succeed on the world stage."

Sigonella High School

Sigonella Class of 2026's chapter comes to an end, I find a deep sense of pride in reminiscing on exactly how much this class has lived through together. Everything about our class is constantly evolving. We've welcomed new faces, said goodbye to others, adjusted to new schedules, and explored many countries and cultures. Somehow, through all of this movement, we've managed to build an iridescent community that feels like home. Our cohort is ever-changing, but unmistakably ours.

Beyond the books, we have been involved in many aspects of SHS life: sports, music, JROTC, robotics, MUN, JSHS, and countless other clubs and activities that have kept our school busy and connected. This year, we continued traditions like Senior Sunrise and Sunset, sharing many experiences that made our final year feel full and genuinely our own.

Serving as Class President has been one of the biggest honors of my time at SHS. From freshmen to seniors, my class worked tenaciously through fundraisers, pep rallies, spirit weeks, and everything it took to bring prom to life. None of it was easy, but we showed up for each other when we really needed it, and that is incredibly special.

We've gotten used to change, and that's something we'll take with us. Whatever comes next, from new places to new people to new routines, we already know how to handle it. We've done it together for years. I think that's going to help us more than we realize.

Cheers to the SHS Class of 2026!

Spangdahlem, Germany

Spangdahlem High School

Spangdahlem's class of '26 can be described with so many positive words. We are silly, driven, outstanding, friendly, and brilliant. But the most important word to describe us is resilient. We have had to overcome so many obstacles leading up to this moment. Things like COVID, PCsing, government shutdowns, and the constant need to adapt to different environments. Through all of these, we have still found a way to come together and stand head and shoulders above others.

Throughout this year, we have bonded, laughed, and of course disagreed. But in our school, we have been described as "One of the best senior classes" a quote that comes directly from all of our teachers. We have made many things here, but our legacy will always be the one to remember. Although everyone, including us, is sad to see us go, it is finally our turn. It's our turn to leave our mark and start our long-awaited journey.

And to my senior class, thank you for making this year cherishable. I've watched us change in such a short time. We have grown so much in knowledge and character. When I look at us, I see limitless potential. I believe every one of you will become something even more stellar. The world holds so much for us, and we don't even know yet.

On behalf of the class of 2026,

It still feels like the beginning of the year. It still feels like we're looking forward to "the best year of high school," and that the next year is full of opportunities for all of us. Even though some people wouldn't like to admit it, too much of this year has passed by too fast. We all had classes and days we dreaded, and we all had teachers we've been less than fond of. Our school year is almost up, and yet it feels like it hasn't even started. But as sad as we might feel to leave, I'm sure we can say we're almost twice as excited to go out on our own. Whether in a good way or bad, SHS has been our home.

And we're all going to find new homes. We're all going to move on from this substantial chapter of our lives; some of us quicker than others. And the strange thing is, there's no real moment where it suddenly feels finished. It just sort of ends. One normal day turns into the last time you sit in a class, the last time you walk these halls without realizing it.

Maybe that's the point. Not everything important announces itself. A lot of it just happens, and you only understand it later.

No matter how substantial the impact this school had on you, you will still carry it with you wherever you go. We may all find new homes, but this year has shown us that, no matter what, we will always have a home with the class of 2026.

Congratulations to the Vicenza High School Class of 2026! I am Katherine Green, the Senior Class President, with Karis Kim, Senior Class Vice President, Hannah Findlay, Senior Class Treasurer, and Nicole Piccolo, Senior Class Secretary. We started this year with our lovely La La Land-themed homecoming, followed by Senior game days and events to encourage school spirit. Upcoming, we have our Gardaland Senior Trip, Senior Dinner, and, finally, Graduation, which will be on June 6th at 1500. We want to give a huge thank you to our Vicenza community- to our parents, faculty, and staff for all the guidance, encouragement, and support they have given, ensuring this final year has been amazing. The Senior Class wants to give special recognition to Mrs. Jami Bahmer for everything she has done over the past 5 years. She has been an integral part of our school community and spirit, and we are forever grateful for all of her dedication.

— Senior Class President Katherine Green

Vilseck, Germany
Vilseck High School

As the Class of 2026 takes their final steps in Vilseck High School, I can gladly say that we have created an environment where everyone can truly be themselves. Each student differs from one another and has collaborated with others in order to accomplish their goals. No matter it is academics, sports, or club activities each individual has given it their all this year, and I am glad to have been their President. I hope that everyone continues their successes as we step into this next chapter. We will always remember the impact that Vilseck has left on our Class.

On behalf of Wiesbaden High School's Class of 2026, we would like to express our gratitude to our families, friends, and teachers for their constant love, support, motivation, and guidance. Upon reflection of our time in Germany, we are incredibly thankful for this amazing opportunity we've been given. We feel so fortunate to have had the experience of living in Europe and having been exposed to people from all walks of life. It has made us more accepting and tolerant of those around us which can only make us better equipped to address the issues our generation will face. As a smaller class, the Class of 2026 has developed into a close-knit community. We've won championships, suffered defeats, and hopefully, grown up along the way. We've done those things as a group, and now we face the future as individuals - with hope and confidence. This community is special; its outpouring of support has been constant and generous. We will never be able to express our appreciation adequately. But we take this with us as we head out on the next great adventure.

Congratulations to the Class of 2026!

— Wiesbaden High School Senior Class Officers
